

ROOTED IN NEBRASKA

Why Invest With Us

Real acreage, real harvests and a platform built for transparency.
Farmland investing with a 5th generation family farm — from \$2,000.

Ten reasons investors stay

Everything below is live inside your investor portal from the moment you join — no spreadsheets, no guesswork, no waiting on email.

- **Backed by real acreage**
Your money funds actual corn and soybean crop cycles on family-farmed Nebraska ground.
- **Low entry, high ceiling**
Start at \$2,000 and scale to \$250,000+ — the same care and reporting at every level.
- **Live balance & profit dashboard**
See your principal, credited profit and total balance update the moment our team posts it.
- **A direct line to the Laura Farms team**
Every investment opens a private thread. You talk to real people, not a ticket queue.
- **Full payment timeline**
Pending, submitted, approved, credited — you always know exactly which stage you are at.
- **Upload proof, get a hash**
Attach your receipt and every transaction is stamped with a unique long reference hash.
- **Your choice of payment**
Crypto first, plus PayPal, Venmo, Cash App and bank transfer — guided step by step.
- **Returns credited through your cycle**
Profit is posted to your balance across your tier's return window as the crop cycle runs.
- **Withdraw at the end of your investment**
Your full balance — principal and profit — is released when your investment cycle completes.
- **Earn while you refer**
Share your personal link and 3% of what your referral invests is credited to your wallet.

Investment Packages

Three tiers, from \$2,000

Pick the tier that matches your goals. Every tier includes portal access, a private team thread, payment timeline tracking and profit posted straight to your balance.

TIER	INVESTMENT RANGE	EXPECTED	RETURN WINDOW
Harvest Starter Row crop allocation, live dashboard, team thread, crop insurance	\$2,000 – \$25,000	8-36%	Week 10 – 30
Growth Acreage Multi-acre diversified share, bi-weekly field updates, farm tour invite	\$25,000 – \$100,000	15-52%	Week 16 – 48
Legacy Estate Premium acreage, direct Laura contact, custom crops, annual retreat	\$100,000 – \$250,000+	25-75%	Week 24 – 72

Withdrawals in plain English

Profit is credited to your balance across your tier's return window while the crop cycle runs. Withdrawals are made at the end of your investment: once your cycle is complete you request your withdrawal in the portal and the Laura Farms team reviews and releases your funds. There is no fixed calendar date — your window opens when your investment finishes.

How You Get Paid

Crypto first — paid at exact value

Crypto is our preferred and fastest method. Whatever you send is credited at its exact USD value at the time we confirm it, and your profit is paid back the same way — no hidden spreads, no conversion fees taken out of your return.

Preferred: Crypto (with scannable QR)

- USDT (TRC-20) — fastest confirmation, lowest network fee
- Bitcoin (BTC) — credited at the confirmed USD value
- Save the QR straight to your phone gallery from the portal

Also accepted

- › PayPal, Venmo and Cash App — guided inside your private thread
- › Bank / wire transfer — written instructions from the team
- › One active transaction per investor; your method locks once chosen
- › Need to switch method? Request it and the team approves the change

Step by step

1 Create your account

Register with your email and confirm the 6-digit code we send you.

2 Choose your amount

Pick a tier or set a custom amount from \$2,000 upward.

3 Pick a payment method

Crypto first, or PayPal, Venmo, Cash App or bank transfer.

4 Pay and upload proof

Attach your receipt; the transaction gets a unique long hash.

5 Get credited

Our team approves and your balance and profit go live in the dashboard.

6 Withdraw

At the end of your investment, request your withdrawal in the portal.

Let's grow together

Our team replies personally to every investor enquiry.
